A Special Kind Of Care

When children suffer a traumatic injury or illness, their families depend on medical professionals to offer them hope, rooted in the latest knowledge and treatment.

At the Second Annual Brenner Children’s Hospital Pediatric Trauma Conference, you’ll learn more about cutting-edge developments in prevention and treatment.

Brenner Children’s Hospital is NC’s only ACS-verified level 1 Pediatric Trauma Center.

Purpose
To assist healthcare professionals who care for or have an interest in Pediatric trauma patients to gain current knowledge about trauma care from the pre-hospital phase through discharge.

Objective
After attending this seminar, physicians, EMS professionals, Emergency Department staff, critical care and medical/surgical nurses, respiratory therapists, pharmacists, physical therapists, and other ancillary services caring for injured children will have new insight into the multifaceted aspects of trauma management in the field and in the hospital.
