2013 Vascular Symposium

Innovative Pursuits in Limb Preservation and Intro to TAVR

Friday, September 27, 2013

Novant Health Conference Center
at Novant Health Forysth Medical Center
Winston-Salem, NC
Novant Health Forsyth Medical Center is hosting the fifth annual Vascular Symposium on Friday, September 27, 2013, at the Novant Health Conference Center. This symposium addresses the impact of a multi-disciplinary team in limb preservation to ensure that all causal linkages and confounding factors are identified, evaluated and properly treated.

**Who should attend:** foot and ankle specialists, hospitalists, infectious disease physicians, vascular surgeons, plastic surgeons, interventional cardiologists, cardiothoracic surgeons, primary care physicians, internal medicine physicians, wound care specialists, mid-level providers, nurses and other health care professionals.

**Vascular Symposium faculty**

**Guest faculty:**

**John Steinberg, DPM:** Podiatric surgeon, Medstar Georgetown University Hospital, Washington DC, Co-director of Center for Wound Healing & Hyperbaric Medicine

**John Wassel, MD:** Orthopedic surgeon, Medical director, Novant Health Wound Care & Hyperbaric Medicine, Charlotte, NC

**Local faculty:**

**David Duncan, MD:** Cardiothoracic surgeon, Novant Health Cardiothoracic Surgeons

**Joel Deonanan, MD:** Vascular surgeon, Novant Health Vascular Specialists

**Shawn Fleming, MD:** Vascular surgeon, Novant Health Vascular Specialists

**Gerald Hogsette Jr., MD:** Hospitalist, Novant Health Forsyth Medical Center Inpatient Care Specialists

**Phillip Moore, MD:** Vascular surgeon, Novant Health Vascular Specialists

**Michael Morgan, MD:** Infectious disease physician, Novant Health Infectious Disease Specialists

**Robb Mothershed, DPM:** Podiatric surgeon, Foot and Ankle Specialists of the Carolinas

**Robert Preli, MD:** Interventional cardiologist, Novant Health Winston-Salem Cardiology

**Behzad Taghizadeh, MD:** Interventional cardiologist, Novant Health Heart and Vascular

**William Thetford, DPM:** Podiatric surgeon, Novant Health Foot and Ankle Specialists

**C. Ray Workman, MD:** Vascular surgeon, Novant Health Vascular Specialists

**Accreditation & CME information**

Novant Health is the continuing medical education provider for this activity.

**Accreditation statement:** This activity has been planned and implemented in accordance with the Essential Areas and policies of the North Carolina Medical Society. Novant Health is accredited by the NCMS to provide continuing medical education for physicians.

**Credit designation statement:** Novant Health designates the above educational activities for a maximum of 6.25 AMA PRA Category 1 Credits™. Novant Health Corporate Education and Training is an approved provider of continuing nursing education by the North Carolina Nurses Association. Novant Health designates the educational activity for a maximum of 6.25 Continued Education Units (CEUs). This activity is pending credit hour approval by the American Society of Radiologic Technologists (ASRT). All attendees should claim only those hours of credit actually spent in the educational activity.
**Policy on faculty and sponsor disclosure:** Novant Health adheres to the NCMS Standards regarding the industry support of continuing medical education. Disclosure of faculty and commercial support relationships, if any, will be made known at the activity.

**ADA statement:** If you need any auxiliary aids or services identified in the Americans with Disabilities Act in order to attend this conference, please call Kathy Gaydos at 336-718-5987 or email kagaydos@novanthealth.org.

**Learning objectives**

- Analyze the latest wound care technology and advances in treatment aimed at expediting the healing process and salvaging severely damaged limbs.
- Assess the effectiveness of pharmacologic agents, hyperbaric oxygen therapy and local treatment options in the care of diabetic foot infections and other non-healing wounds.
- Review state-of-the-art diagnostic tools used to detect arterial disease, determine oxygen levels in tissue and classify the severity of disease.
- Describe a holistic, community-based team approach to wound care and limb preservation by involving multi-disciplinary providers.
- Evaluate non-operative and surgical options emerging in the treatment of cardiovascular disease and limb preservation.
- Evaluate the evidence on prognostic factors, grafting outcomes, and predictors of diabetic limb salvage and chronic wound healing.
- Identify an emerging interventional procedure for patients needing aortic valve repair/replacement.
